I - THE GENERAL MANAGER'S FOREWORD

Dr. AHMADOU SARDAOUNA SIC, ONE STEP CLOSER TO HIGH-STANDARD CONSTRUCTION

ameroon Real Estate Corporation(SIC) is on its way to reaching a milestone in the strategic recovery of its structure. While preserving the gains made, we continue the work started by our predecessors with strategic operational actions capable of providing better prospects for our company.

In two years, SIC has managed to turn the tide. After 13 years of losses, we have succeeded in turning things around.

This result is the fruit of salutary measures that have allowed the payment of social and fiscal charges, a breath of fresh air to boost investments, thanks to the intervention of the State, the clear-sighted vision of the top management and the determination of SIC staff.

After the construction of the "Abiergue Residence", which was a success in terms of high-standing flats, the project to build the "Mfoundi Residence" affords SIC the opportunity to make a second qualitative leap in this type of housing. The "Mfoundi Residence" is an architectural jewel located in the Hippodrome District in the city of Yaounde. It is a high-standing building targeting economic operators, senior executives of public and private administrations and the diaspora...

II - SIC IN BRIEF

Cameroon Real Estate Corporation (SIC) was founded on 18 July 1952. Today, it is a Public Limited Company with a capital of 75,000,000,000 CFA francs, held by the State, the Decentralised Local Authorities, companies with public capital, on the one hand, and legal entities or individuals under private law on the other. Its majority public shareholding is its guarantee of credibility. Its expertise, experience and scope of action make it the N°1 real estate company in Cameroon. It is run since August 2019 by Dr Ahmadou Sardaouna and is placed under the supervision of the Ministry of Housing and Urban Development. The Ministry of Finance (92% majority shareholder).

The managerial vision

The vision of the top management is to turn the Cameroon Real Estate Company into an effective tool for mass production of housing.

« Our Pleasure to Better Accomodate You! »

Its missions

SIC implements the housing policy defined by the public authorities.

As such, it is responsible for the following:

- Building high and medium standing housing for its own use or to be marketed to third parties;
- Develop databases and statistical and economic information relating to housing in Cameroon;
- Developing real estate projects, in particular through subdivision, land development, construction or any other related activities;
- To build sewage networks;
- Developing and promoting the construction industry in order to increase the mass production of housing;
- Promote self-building in relation with the administrations and organisations concerned;
- To carry out work on a regular basis;
- To acquire for sale or rent any building for main residential use;
- Conclude and execute any management or intermediation mandate in the housing sector;
- Maintaining, renovating and rehabilitating the real estate in its portfolio, as well as any other building at the request of third parties;

- Search for technical and financial partners;
- Negotiate and sign conventions or agreements with public or private entities in Cameroon or abroad;
- Take or buy out shares in the capital of national or foreign companies;
- Providing institutional support and advice to the State, its branches and all other institutions in the area of project development, construction, promotion and management in the housing sector;
- To supervise private property developers;

Carrying out technical, socio-economic and financial studies on behalf of the State or third parties.

III - THE MFOUNDI RESIDENCE: a building that stands out

Several prerequisites are at the forefront of this project:

- The need for SIC to relaunch the production of flats in the face of an ever-increasing demand;
- The strong demand of compatriots in the diaspora for high standard flats;
- The need for SIC to diversify its offer;
- Embellishment of the city;
- The improvement of the Cameroonian economy.

A series of trail-blazing projects such as the Etetak Residence, the Djoungolo and the Abiergue Residence has also strengthened SIC's position in this new impetus, which at the same time allows the company to enhance the value of the land it owns in urban areas.

It is against this backdrop that the Mfoundi Residence germinated.

IV- OVERVIEW

DESCRIPTION OF THE BUILDING

The Mfoundi Residence is a high standard building of 11 floors consisting of a basement and two ground floors in the Hippodrome district of Yaounde.

Luxury, style and beauty are at your feet at "The Mfoundi Residence" through the following:

- -152 Flats of Type T1, T2, T3, T4, T5 and T6 ranging from 18.52 to 445.6m²,
- -8154 m² of space has been reserved for:
 - .954.8 m² of commercial space,
 - .4130 m² of parking lot (=134 parking spaces),
 - .3070 m² of common space,
- -4 Lifts,
- -1 Fire Safety System,
- -2 Refuse Rooms,
- 2 Generators with a Total Power of 800 KVA
- -1 Room dedicated to the General Low Voltage Switchboard (TGBT)
- -1 Room dedicated to the Caretaker's Office,
- -1Sewage Treatment Plant,
- -1 Water Tank.

LOCATION MAP

Located in the heart of the city centre, the Hippodrome District is home to Yaounde's main financial centre. This makes it an asset for economic operators. Endowed with an easy access to communication, transport and all related networks, it also benefits from all the city's amenities.

Le Mfoundi Residence is close to the General Delegation for National Security, the Central Police Station No.1, the Fire Station, the City Hall and the Independence Square. This strategic position is safe for future buyers.

MASTER PLAN

This plot is part of the land title No. 0743 of the Mfoundi department belonging entirely to SIC.

The land base allocated to the project is 2442 m² oriented North-South all in length, accessible by a single road on the eastern boundary.

BASEMENT

The basement is accessed via a ramp. It has a capacity of 2 parking lots. It also contains the sewage-treatment plant and technical premises.

It is connected to the various floors of the building by 2 staircases and 4 lifts.

- 5- Balance when the flat is handed over to the buyer;
- 6- Signing of the co-ownership rules;
- 7- Delivery of the keys;
- 8- Issuance of the title deed;
- 9- Application fee 50,000 FCFA

VI - CO-OWNERSHIP MANAGEMENT

In accordance with the Law No. 2010 /22 of 21 December 2010 governing the co-ownership of buildings, a co-ownership regulation is mandatory for all successive co-owners and for all those who are supposed to be in their stead, including their tenants. A copy of it will be made available to you for information and approval purposes. This co-ownership by-law aims at ensuring the smooth organisation and proper administration of the co-ownership of THE MFOUNDI Residence and, as such, it:

- · Determines the common parts usable by all or some of the co-owners, as well as the private parts belonging to each of them;
- · Also determines the rights of the co-owners on the private parts and on the common parts as well as their obligations;
- · Finally, sets the rules of good neighbourliness between co-owners, so as to avoid or prevent any dispute that must be settled pursuant to the law.

THE SYNDICATE OF CO-OWNERS

The community of co-owners of "The Mfoundi Residence" is constituted as a syndicate with a legal personality and is entitled to take legal actions to safeguard the rights relating to the building. It chooses and appoints the syndic of co-ownership.

THE TRADE UNION COUNCIL

The trade union council is composed of nine (9) members appointed by the syndicate of co-owners. Its role is to control the management of the syndic, the accounting and the execution of the budget, especially.

THE SYNDIC OF CO-OWNERSHIP

The syndic of co-ownership is the executive body of the co-ownership. Within its terms of reference, it receives a mandate from the syndicate of owners to manage the condominium and the common areas.

N.B.: All these management bodies of the co-ownership are governed by law No. 2010/022 of 21 December 2010 and its implementing decree No. 2011/1131/PM of 11 May 2011 on the co-ownership of buildings.
